Yes, I did call in. A SEIS is expected. The major change is the proposed mitigation. They are planning to preserve/restore a large, former timber area.

The attached are my notes FYI

Beth did you happen to call in for the ACE meeting? I got an updated Public Notice for I-73 today. Ramona had mentioned before she left that there might be a supplemental EIS required since the initial EIS was so long ago. Has there been any more talk of that? I hope so as many of the alternatives in the original have changed dramatic ally.

Thanks,

Kelly Laycock

Hi Kelly and Beth,

Sorry for the short notice, Shane Belcher and I just noticed you all were not on the email for the ACE meeting today. If you can, we would like for you to join us at 9am. If not, we can have a conference call to discuss the I-73 project with you at a later time at your convenience.

Beth, I know that you will be taking over Ramona's projects, and if you would like, we would be more than happy to meet with you sometime and discuss the proposed projects that are going on in the state, like I-73, Carolina Crossroads, etc.

Thanks,

Michelle Herrell
